On-Time Completion Rate: Twenty percent of cosmetology graduates completed their program according to the time frame on their contract between July 1, 2011 and June 30, 2012 as compared to the total number of graduates who completed their program in the same time frame.

Note about Outcome Rates:

1. The completion rate does not show students who may have transferred and completed due in part to the training provided by Capri Beauty College and does not show those who may have completed the report period due to an approved medical leave of absence or other factors.
2. The employment rate reflects only the students that we were able to contact. It is likely that other graduates are working, but that we were unable to confirm their information.
3. Some graduates who failed the licensure exam may have in fact passed on a subsequent attempt.
4. The on-time completion is not the same as the completion rate. This statistic records only those students that complete the program by the exact date on their enrollment agreement. Any absence throughout the course, including medical and approved leave of absence, affects the percent of on-time completion.
